## **Code of Behaviour**

### **Introduction**

This policy was reviewed in January 2023 in line with Tusla's guidelines for 'Developing a Code of Behaviour'. This review was carried out by the Principal in collaboration with staff and the Board of Management. This code forms part of the enrolment process at Kilsheelan NS. Parents/guardians of new enrolments must review and sign an acceptance to adhere to and support the schools Code of Behaviour.

### **School Discipline**

The Board of Management has ultimate responsibility for discipline in the school under its management and a duty to ensure that a fair code of behaviour applies therein. This code should be formulated by the principal and the teaching staff in consultation with parents and be approved by the Board.

### **School Ethos and Aims of Code of Behaviour**

The following is a code of behaviour of Scoil Mhuire, Kilsheelan. It was drafted by the Principal and Staff in consultation with the Board of Management. The ethos of this school is to develop in each child a love of learning and an enquiring mind and to maximize and develop each child's potential.

We aim to have and maintain high standards of behaviour. This points to the importance of a strong sense of community within the school, and the existence of a high level of co-operation among Teachers, Ancillary Staff, Pupils, Parents, Parents Association and the Board of Management. The school places a great emphasis on the need to give the children every possible opportunity to develop patterns of good behaviour. The aim is to ensure that the individuality of each child is accommodated, while at the same time acknowledging the right of each child to education in a disruption free environment.

### ***Aims of Code of Behaviour***

*The code of behaviour aims to achieve three things:*

1. The efficient operation of the school and the structuring of in-class discipline so that there exists an efficient and stimulating learning environment.
2. The maintenance of good order throughout the school and respect for the school environment.
3. The development of self-discipline in pupils based on consideration, respect, and tolerance for others.

### **Principles of Behaviour Policy:**

If the school is to achieve a happy, secure environment in which children can develop their full potential it is necessary to provide a framework which promotes constructive behaviour and discourage unacceptable behaviour. The school code places a greater emphasis on rewards than on sanctions and the ideal is that pupils will acquire the skills of self-discipline. There are times however when it may be necessary to impose sanctions in order to maintain

good order and to discourages offenders. School rules are kept to a minimum and are devised with regards for the health, safety and welfare of all members of the school community.

### **School Rules:**

If a school is to function efficiently it is necessary that rules and regulations are clearly stated and enforced consistently and wisely.

A copy of the code of discipline will be given to each family and child with parent(s) will sign a commitment form to adhere to school rules. School rules will be discussed regularly at Assembly meetings.

### **Respect and Courtesy:**

All pupils are expected to treat staff, their fellow pupils and visitors with respect and courtesy at all times.
